

Sponsorship Prospectus 2027

Doula Conference exists to affect better birth outcomes and healthier families in Australia.

Working to raise public awareness and demystify the work of doulas in Australia; to diversify the conversation about birth and promote mutual understanding between doulas and the medical / allied health community.

You are invited to join us on our mission.

What doulas do

A doula provides non-judgemental emotional, physical and informational support to women and families during pregnancy, labour, birth and the postpartum period.

Focusing on wellbeing, informed choice and personalised support, more families are hiring doulas to bridge the gap in maternity services by providing continuity of care, individualised to each client.

Doulas make a difference

Doula care was associated with more vaginal births after cesarean delivery and fewer preterm deliveries. The effect of doula care was consistent across race and insurance status.[^]

Moreover, the emotional support provided by doulas was seen to reduce anxiety and stress [and] shown to improve breastfeeding success.⁺

Research has found that the support of a trained doula leads to:

- a labour shorter by 41 minutes.*
- 39% decrease in Caesarean sections.*
- 38% decrease in low APGAR scores.*
- 31% increase in birth satisfaction.*
- 16.9% decrease in anxiety.***
- 15% increase in spontaneous vaginal birth.*
- 12.5% decrease in pain.***
- 10% decrease in pain medication use.*
- 10% reduction in instrumental birth.*
- 8.7% increase in initiation of breastfeeding.**

Allied Health Practitioners
Parents & anyone interested
in birth & postpartum

Expecting 80 - 120 attendees

The Doula Network of Australia has 900 current members and the Doula Conference newsletter reaches over 2,000 subscribers

“Connecting doulas with other doulas is important for sharing experience, new and old ways of doing things, discussing innovation, & information... that will ultimately benefit birthing mothers & families. It is essential for raising the profile of a movement that has been proven to support better birth outcomes and healthier families”

The venue

Balam Balam Place
Brunswick, Melbourne
VICTORIA

The theme

‘Becoming: Bringing Change Into Focus’

is an opportunity for us, as individuals and practitioners, to explore change, not simply as something that happens at particular moments in our lives but change as a state we are always inhabiting. To reflect on where we place our focus and to be open to the constant possibilities offered to us, to who and what we are becoming.

Sponsorship packages
